

YOUR PARTNER IN SAFETY

WHAT IS THE PURPOSE OF THE THSAO?

To assist member firms in the reduction/elimination of occupational injuries and illnesses through education, audits and consulting. Prevention is our ultimate goal.

WHO ARE THE MEMBERS?

Businesses in the transportation sector who pay an assessment to the WSIB. A full list of the industry rate groups we serve is shown in this pamphlet.

WHY SHOULD EMPLOYERS BE ACTIVE IN INJURY AND ILLNESS PREVENTION?

- To meet our moral and legal responsibilities for the safety of your workers
- To prevent production loss due to the absence of injured workers
- To avoid needless costs resulting from injuries and illnesses
- To help achieve effective management through the realization that a pro-active Injury Prevention Program can result in the reduction/elimination of occupational injuries and illnesses.

As a member of this Association, you can do your part to prevent occupational injuries and illnesses by:

- recognizing the human and economic loss resulting from injuries
- influencing, promoting, and implementing prevention programs
- adhering to the principles of health and safety in your work environment and in your personal conduct.

Courses and other support materials are published and made available by the THSAO. If you are interested in finding out how the THSAO can help your company, please call your regional office. The telephone numbers are on the back of this pamphlet.
